

PRESSURE VESSELS

# Frick® Custom Vessels

Engineered for Clean, Safe Operation in  
Industrial Refrigeration Facilities

**Frick®**  
INDUSTRIAL REFRIGERATION

Designed and manufactured to meet the exact specifications of your refrigeration facility.

### Accumulators

Vertical and horizontal accumulators with or without coils.

### Intercoolers

Vertical and horizontal intercoolers with or without coils.

### Economizers

Flash type and shell & coil type.

### Receivers

High pressure, controlled pressure, thermosyphon, pilot, liquid injection oil cooling. High pressure/thermosyphon combination applications. All are available in vertical and horizontal design.

### Oil Separators

Coalescer and demister-type separators, vertical and horizontal design.

### Surge Drums

Single-flow or dual-flow design. Vertical or horizontal.

### Oil Pots

Horizontal Oil Pots with optional heaters.

# ASME National Board Certified. Flexible Options for Easy Application!

## Horizontal and Vertical Recirculator Vessels

24" diameter through  
96" diameter

## Packaged LaZerWeld (PLW)

A plate and frame heat exchanger mounted on a structural base, piped to a liquid separator and wired with a NEMA 4 liquid level control panel. Designed to cool water or brine utilizing liquid refrigerant from a central refrigeration system.

## Vertical and Horizontal Liquid Recirculator Packages

Frick recirculator packages are supplied with Teikoku hermetic or Cornell open drive liquid pumps, liquid makeup assemblies (shipped loose), liquid level controls, package controls, and pump motor starters. Package vessels are available in 24" dia. through 96" dia. for use with R-717 or other refrigerants.
