## PROJECTS

**PURCHASING SERVICE**

**PROJECT SERVICE**

**OFFER MAKING ASSISTANCE**

**PROJECT EXPORTER PACKING AND FORWARDING**

## FABRICATION

**PLANNING**

**ASSEMBLING**

**TESTING**

## LOGISTICS

**DISTRIBUTION**

**24 HOUR SERVICE**

**SUPER FAST DELIVERY**

**PRECISION DELIVERY**

# Quality and environment

## Environment

- ↗ We take care of environment
- ↗ We support and advice our customers to select environmentally sustainable solution

## Quality

- ↗ Continuous improvement is a key part of quality system
- ↗ Quality system to ensure that the customer is satisfied

# Our Products

- ✓ **Standard Condensing Units**
- ✓ **Condensing Units with housing**
- ✓ **Multicompressor Pack with Scroll Compressors**
- ✓ **Multicompressor Pack with Semi hermetic Compressors**
- ✓ **Customized Products**

*Standard Components*  
*Primary international quality*

*Construction*  
*Frame are built in galvanized metal sheet. They are robust and resistant*

*Coating*  
*Oven epoxy paint to ensure a better resistance to weathering*

*Noise and vibration*  
*Limited thanks to a careful and innovative design*

*Multirefrigerant*  
*Products selected with different types of refrigerants*

*Installation*  
*Weatherproof housing suitable for outdoor installation. All connections are designed to maximize ease of installation operations*

*Maintenance*  
*Limited cost in function of quality, availability and easy access of the components*

*Operation*  
*Command and control unit with a microprocessor controller of latest generation (where provided)*

*Configuration*  
*Configurable product with a wide range of accessories*

*Remote Control*  
*Remote control panel and serial card (where provided) for remote control of the unit*

*European Standards*  
*According to EC directives and regulations*

## Standard Condensing Units

OCU

Open condensing units with air, water or remote condenser for continental and tropicalized application.
