# **easy** loading and **user friendly** handling

vertical  
freezer  
V30 series

The vertical plate freezers in the V30 series are flat-top freezers designed for onshore productions that demand easy loading and user-friendly handling. The freezers can be loaded and unloaded from both sides – manually as well as automatically.

Depending on your needs, it is mounted with manually removable block dividers or fixed block dividers. It is also possible to install V-angles on the plates for easy breaking or cutting blocks instead of block dividers.

The V30 series uses a single pass of refrigerant in the plates. This provides the best heat transfer possible – especially compared to other plate freezers on the market that use double pass.

DSI DANTECH

### Dairy

Customized and sustainable freezing and auxiliary solutions for quality dairy products such as yoghurt and cheese

### Meat & Poultry

Customized solutions to freeze, cool and heat quality meat, poultry, MDM or by-products. Fast freezing, long running times and higher yield

### Fish & Seafood

Sustainable and safe solutions for freezing, cooling and heating of fish & seafood. From shrimps, langoustines, mackerel, clams to sprats and salmon

### Liquids & Fluids

Customized solutions to freeze, cool and heat fruit juices, soft drinks, water, dairy and milk products as well as thicker fluids such as blood or syrup

### Fruit & Vegetables

Customized and sustainable freezing, chilling and heating solutions that extend the season for fruit and vegetables for higher yield and product quality

### Pet food

High-tech freezing solutions for the pet food industry improving quality and food safety. Maintain freshness and taste and deliver nutritious pet food

### Non-Food

Customized solutions for freezing, chilling, thawing and heating of non-food such as metal, lab items and biopharmaceutical products

reducing **freezing times** and **kW** consumption

- Optimum plate size
- Unique design
- Low power consumption
- Easy to maintain and clean
- Automatic or manual unloading
- CorePoint temperature measuring system
- Low maintenance costs
